TOP 5 TRANSFORMING SUPERYACHT TENDERS

1 of 5

VIEW ON ONE PAGE

1 Kormaran K7

From expanding speedsters to amphibious beach crawlers, these innovative superyacht tenders are much more than meets the eye.

Recently upgraded with a more powerful 900hp engine set-up, the K7 is the first model from Austrian company Kormaran. Capable of cruising in monohull, catamaran and trimaran modes, the 7.1 metre K7 also has retractable foils that allow it to fly above the water. And with a top speed of just under 38 knots, this innovative speed machine is sure to make waves in 2017, with construction of the first sold models already underway in Salzburg.
