## THE 10 SPONSORS OF THE SHOWBOATS DESIGN AWARDS 2017

10 of 10

[VIEW ON ONE PAGE](#)

### 10 Event partner: Kormaran

The essence of the KORMARAN is to transform, to convert itself. To perfectly adjust to every situation. The KORMARAN K7 First Edition combines optimum comfort with safety, power and elegance. Whether gliding, driving or flying the K7 FE, unique experiences and driving sensations can be expected.

The transformation system is a groundbreaking innovation, allowing the Kormaran to change the distance between the hulls and the height of the central passenger cabin. In this way it allows the variability and the multifunctionality of the vessel. While conventional boats cannot change their characteristics, the Kormaran can transform even while in motion, elegantly combining the agility of a monohull for quick maneuvers with the stability of a catamaran or trimaran. In addition, the K7 FE can gracefully transform into a large sunbathing island, without compromising transport or storage space.

Founded in 2010 in Salzburg by Dr. Oliver Kormann and his wife Jutta Kormann, KORMARAN GmbH produces the most transformable superboat on the market. The philosophy of KORMARAN is bringing together the values of high-class design, meticulous precision and high-quality craftsmanship, leading to absolute perfection in every detail in styling, design, materials and technology. Furthermore, social responsibility is taken for sustainability in nature, culture and, of course, for employees and their families. The company is continuously growing and today has a team of 25 people in development, design and operations.
